

Good afternoon

My name is Yemima Lupu I am the second daughter of Jack and Bekel Adler.

I am glad to be here on this special event.

My parents would have been very pleased to know that the amazing story of their rescue from the horrible time during World War II under the Nazi regime and their collaborators in Holland, is being translated to Dutch and published here.

The main purpose of my parents in writing the book was to immortalize the story of their miraculous saving, and the importance of the Jewish state. And here in a special coincidence, this edition of the book comes out in the year in which Israel celebrates 70 years of independence.

My parents were fortunate enough to form a big family - 9 grandchildren and 29 great grandchildren. Yesterday my granddaughter Raz joined the Israeli army. She will serve at the air force.

We all live in Israel. My family lived in several places in Israel but most of the time in Rishon Le Zion - a city near to Tel Aviv.

My parents worked in an hospital for lung patients. My father was a lung specialist he was the deputy director of the hospital and my mother was the deputy head nurse.

My father died in 2008 at the age of 95.

My mother died in 2012 at the age of 99. Both are buried in Rishon Le Zion.

My sister Yocheved lives in Rishon Le Zion.

I live in Mevasseret Zion near Jerusalem. Yael my elder sister passed away two months ago she lived in Gan Yavene near Ashdod.

It is very sad that my sister is not here with us - Yael Jacklyn died two months ago.

The pregnancy, her birth and the first year of her life are an integral part of my parents' struggle during the war.

The rescue of my family was possible thanks to the wonderful people that in grave danger rescued their lives and their families in order to save Jews. The same people who during one of the worst times in history enabled the birth of a Jewish child. -it is a bright light which we will never forget.

I want to thank all my friends who took part in translating and publishing the book.
